Denver Mint. In addition to two new Golden Dollars featuring Sacagawea, you'll get two each of the Lincoln cent, the Jefferson nickel, the Roosevelt dime, and the Kennedy half-dollar—plus you'll get two quarters from each of the five states honored this year under the 50 State Quarters™ Program.

Accepting Unlimited Orders

If you're a serious collector, you will certainly want the historic 2000 United States Mint Uncirculated Coin Set® to add value to your own collection. They're only available for a short time, and production is strictly limited. What's more, the five quarters issued in 2000 will never be struck again. Remember—this year, there are **NO LIMITS** for collectors—you may order as many uncirculated sets as you wish while supplies last. But these sets will likely sell out quickly, so order yours today.

The United States Mint's Historic Legacy

The Philadelphia Mint was established by an Act of Congress in 1792. It issued about 1.2 million copper cents and half cents between March 1793 and December 1795. Today, the Philadelphia Mint can produce 1.8 million coins per hour! The Denver Mint, established April 21, 1862, by an Act of Congress, manufactures various commemorative coins and medals. All of the coins in the 2000 Uncirculated Coin Set are legal tender of the United States of America.
